PROFILE

Enthusiastic and self-driven third-year undergraduate specializing in Data Science at SLIIT, with a solid foundation in statistics, machine learning, and programming. Passionate about extracting insights from data to solve real-world problems. Skilled in tools and technologies such as Python, R, SQL, and data visualization libraries. Eager to apply analytical thinking and technical skills in dynamic environments to contribute meaningfully to data-driven projects.

EDUCATION

B.Sc (Hons) in Information Technology

June 2023 - Present

Sri Lanka Institute of Information Technology (SLIIT)

- Specialization in Data Science.
- Current GPA : 3.4
- Key Modules :

Introduction to programming / Object Oriented Concepts / Information System and Data Modeling / Internet and Web Technologies / Software Engineering / Object Oriented Programming / Database Management System / Computer Network / Operating Systems and System Administration/Mobile Application Development / Data Structures and Algorithms / Machine Learning and Optimization Methods / Information Retrieval and Web Analytics / Fundamentals of Data Mining / Massive Data Processing and Cloud Computing

GCE Advanced Level - Physical Science Stream

2021/2022

Wayamba Royal College

- Subjects : Combined Mathematics, Physics, Chemistry [3C's]

GCE Ordinary Level

2018

Wayamba Royal College

- Results : 9A's (including Mathematics, Science, English, Information & Communication Technology)
-

CERTIFICATIONS

- **Python for Beginners**
University Of Moratuwa
- **SQL & Relational Databases**
Cognitive Class (IBM Skill Network)
- **Deep Learning Fundamentals**
Cognitive Class (IBM Skill Network)
- **Introduction to Quantum Computing**
Cognitive Class (IBM Skill Network)
- **Introduction to Cloud**
Cognitive Class (IBM Skill Network)
- **Python for Data Science**
Cognitive Class (IBM Skill Network)
- **Data Science methodology**
Cognitive Class (IBM Skill Network)
- **Prompt Engineering For Everyone**
Cognitive Class (IBM Skill Network)

KEY SKILLS

- **Programming languages**
Python, Java, Java Script, C++, C, R, SQL
- **Frontend Development**
React, Html, Css, Type Script, Tailwind Css
- **Backend Development**
Node js, Express, Python, Java, PHP
- **Data Science**
pandas, numpy, machine learning, data visualization
- **Other Tools**
GitHub, Figma, Postman, AWS

SOFT SKILLS

- Critical thinking & Problem Solving
- Leadership & Teamwork
- Time management & Emotional intelligence
- Effective Communication & Adaptability
- Creativity & Work ethic

PROJECTS

Sustainable Marketing & Wastage Management System

A online buying and selling platform for farmers to sell their products and customers to buy fresh and good vegetables. And also customers can add reviews about their experiences. (MongoDB, Express js, React js, Node js, Tailwind Css, Postman)

GitHub Link - github.com/pasindu7828/Sustainable-Marketting-Wastage-Management-System.git

Online Tour Guide Management System

A online web application for local and foreign tourists can use to find their destinations to visit , book tour guides & vehicles and search destinations. (Java, MySQL, Html, Css, JavaScript, JSP)

GitHub Link - github.com/pasindu7828/Online-Tour-Guide-System.git

Online Fashion Store web application

A online web application for local customers to buy their outfits, jewelleries easily with smooth navigations and user friendly screens. (Html, Css, Java Script, PHP and SQL)

GitHub Link - github.com/pasindu7828/Online-Fashion-Store.git

Finance Tracker mobile application

A mobile app for track monthly income, expences and set budget limits for budgets and show notifications when user reach the budget limits using notification manager and shared preferences. (Kotlin & Figma)

GitHub Link - github.com/pasindu7828/financetracker.git

Online Bus Tracking mobile application

A mobile app for bus passengers to find their root and what are the available buses at that moment, current location of the bus, book tickets with user friendly UI designs. (Kotlin & Figma)

GitHub - github.com/pasindu7828/Online_Bus_Tracking_App.git

Online Medical Center Management system

A online platform to make appointments for patients and staff can manage their services easily and efficiently through this web application. Use local storage for data saving. (Html, Css, Java Script, Bootstrap)

GitHub Link - github.com/pasindu7828/Hospital-Management-System.git

Virgin Oil selling web application

A web application make for my friend's request for improve her ow business. This is only for visible and users can get a good idea about the product through this web application. (Html, Css, Java Script and Bootstrap)

GitHub Link - github.com/pasindu7828/Virgin-Oil-E-Commerce-Web-Application.git
